

Quality of products & service lead to expansion

2010 was certainly a busy year for everyone at Angus MacKinnon, as we sold and serviced more cars and vans than ever before.

We achieved this thanks to a superb team, who have access to the very latest technology and facilities. In order to provide our sales customers with the highest levels of service, we have created a vehicle handover area that is designed to enhance the customers' overall experience.

We have also made several new staff appointments, each are designed to maintain the highest standards on which we have built our business. Craig Whitehouse has been appointed Workshop Controller and we have also additional technicians in both the workshop and bodyshop.

Isabel Cundy joins the sales team as Administrator, ensuring that the sales team can focus on the specific needs of our customers.

Whatever your requirements you can rest assured that Angus MacKinnon will provide you with the quality and value for money that will help you to get the most from your motoring.
